

The Dawn of a New Era

Take a look at these two outstanding new Volkswagen 'transporter' conversions from Autohomes.

The two berth Kompact and four berth Koncord.

Extremely versatile 'high top' conversions that are a real pleasure to drive when touring yet are practical enough for 'every day' use around town.

Although you'll recognise that familiar Volkswagen layout in the rear, a unique feature of these new conversions is that this bench seat, and the rear storage units behind it, can be completely removed in an instant, creating a huge amount of free floor and loading space.

And the bench seat really is a unique feature as it offers total flexibility in the seating arrangements giving you the option of creating a large lounge area, an intimate dining area or a forward travelling position.

And when it's time for bed, the bench seat neatly folds down at the pull of a handle to form the large double bed while the four berth Koncord has an additional slide out upper double bed.

In the offside, you'll find a well equipped kitchen area with an Electrolux three way fridge, stainless steel sink and drainer, two burner cooker/grill (When not in use, a hinged flap folds down to form a useful worktop area.)

With more than enough storage space (even a full length wardrobe with hanging rail) as well as colour coordinated fabrics, luxurious upholstery, furnishings, carpets, front swivelling seats and hand crafted cabinets throughout.

And, of course, there's all the power, performance and manoeuvrability you'll ever need.
